

Index of Quantity of Industrial Production in Palestine during June, 06/2014

The overall Quantity of Industrial Production Index (IPI) in Palestine reached 112.79 during June 2014 with an increase of 3.71% compared to the previous month (May 2014).

Quantity of Industrial Production Index for June 2014 increased due to the increase in **Manufacturing** by 5.81% which had a share of 80.56% of the total industry. While, the activity of **Mining and Quarrying** decreased by 4.52% which had a share of 4.59% of the total industry. As well as, **Water and Electricity Supply** industry decreased by 1.19% which had a share of 14.85% of the total industry.

Industrial Production Index June 2013 – June 2014 (Base Year 2011 = 100)

Note:

- Relative share for the main industrial activities represents the percentage distribution of value added (VA) for the industrial activities in 2009.
- Data of the industrial production index in Gaza Strip was estimated because PCBS was not able to collect any data due to the Israeli aggression on Gaza Strip.
